

1. help – выводит список команд.

```
C:\Users\gnevn>help
For more information on a specific command, type HELP command-name
ASSOC           Displays or modifies file extension associations.
ATTRIB           Displays or changes file attributes.
BREAK            Sets or clears extended CTRL+C checking.
BCDEDIT          Sets properties in boot database to control boot loading.
CACLS            Displays or modifies access control lists (ACLs) of files.
CALL             Calls one batch program from another.
CD               Displays the name of or changes the current directory.
CHCP              Displays or sets the active code page number.
CHDIR             Displays the name of or changes the current directory.
CHKDSK            Checks a disk and displays a status report.
CHKNTFS           Displays or modifies the checking of disk at boot time.
CLS              Clears the screen.
CMD               Starts a new instance of the Windows command interpreter.
COLOR             Sets the default console foreground and background colors.
COMP              Compares the contents of two files or sets of files.
COMPACT            Displays or alters the compression of files on NTFS partitions.
CONVERT            Converts FAT volumes to NTFS. You cannot convert the
                  current drive.
```

2. dir – выводит список файлов и папок в текущей директории.

```

C:\Users\gnevn>dir
Volume in drive C has no label.
Volume Serial Number is CEF7-E83A

Directory of C:\Users\gnevn
